Package common

| Test Case ID | TC-CMM-1.1 | Test Frame | CS1, CN1 |
|----------------------------------|------------------|------------|----------|
| Туре | integration • | | |
| Parai | Parametro Valore | | |
| section | | "general" | |
| na | name "name" | | me" |
| Oracolo | | | |
| return value = "ProjectSunshine" | | | |

| Test Case ID | TC-CMM-1.2 | Test Frame | CS2,CN1 |
|---|---------------|------------------------|---------|
| Туре | integration • | | |
| Parametro | | Valore | |
| section | | "not existing section" | |
| na | name "name" | | me" |
| Oracolo | | | |
| verrà inserito nel log il messaggio "Config setting not existing sectionname not available." | | | |

| Test Case ID | TC-CMM-1.3 | Test Frame | CS1,CN2 |
|---|---------------|----------------------|---------|
| Туре | integration • | | |
| Parametro | | Valore | |
| section | | "general" | |
| name | | "not existing param" | |
| Oracolo | | | |
| verrà inserito nel log il messaggio "Config setting generalnot existing param not available." | | | |

| Test Case ID | TC-CMM-2 | Test Frame | C1 |
|------------------------------|------------------------------|------------|------------|
| Tipo | unit • | | |
| Parai | Parametro Valore | | ore |
| file_ | file_path "file/myfile.java" | | file.java" |
| Oracolo | | | |
| return value = "myfile.java" | | | |

| Test Case ID | TC-CMM-3 | Test Frame | C1 |
|--------------------|----------|-----------------|-----------------|
| Tipo | unit • | | |
| Parai | metro | Val | ore |
| | I | List I = [1, [2 | 2, 3, 4], 5, 6] |
| Oracolo | | | |
| List I = [1, 5, 6] | | | |

| Test Case ID | TC-CMM-4.1 | Test Frame | C1 |
|-----------------|---------------|------------|------------------|
| Tipo | integration • | | |
| Parai | metro | Valore | |
| path_ | path_string | | /input_test.csv" |
| Oracolo | | | |
| list length = 1 | | | |

| Test Case ID | TC-CMM-4.2 | Test Frame | C2 |
|--|---------------|-----------------------------------|----|
| Tipo | integration • | | |
| Parai | metro | Valore | |
| path_string | | "tests/test_files/input_test.csv" | |
| Oracolo | | | |
| Il programma verrà fermato stampando a video l'errore "[Main] Critical: Input CSV file cannot be empty:" | | | |

| Test Case ID | TC-CMM-4.3 | Test Frame | C3 |
|--------------|--|------------|------------------|
| Tipo | integration | | |
| Parai | Parametro Valore | | ore |
| path_ | path_string "tests/test_files/input_test.csv | | /input_test.csv" |
| Oracolo | | | |
| | | | |

Il programma verrà fermato stampando a video l'errore "[Main] Critical: Input CSV file cannot be empty[Main] Critical: Invalid files provided in input CSV file:"

| Test Case ID | TC-CMM-4.4 | Test Frame | C4 |
|--|---------------|------------|----|
| Tipo | integration • | | |
| Parai | netro | Valore | |
| path_ | string | ш | |
| Oracolo | | | |
| La funzione provoca un'eccezione di tipo FileNotFoundError | | | |

| Test Case ID | TC-CMM-5.1 | Test Frame | C1,VALS3,VALE1, TP1 |
|--------------|------------|-----------------------------|------------------------|
| Tipo | unit • | | |
| Parai | metro | Val | ore |
| mod | dule | test_module | |
| message | | test_message | |
| sev | severity | | ity.Critical |
| exit_system | | True | |
| exception | | Exception('test_exception') | |
| Oracolo | | | |

La funzione logger.critical è invocata con parametro ("[test_module] Critical: test_message. Exception: test_exception. Stacktrace: NoneType: None")
 La funzione sys.exit è invocata

| Test Case ID | TC-CMM-5.2 | Test Frame | C1, VALS1, VALE2, TP1 |
|--------------|------------|-----------------------------|--------------------------|
| Tipo | unit • | | |
| Para | metro | Val | ore |
| module | | test_module | |
| message | | test_message | |
| severity | | ErrorSeverity.Warning | |
| exit_system | | False | |
| exception | | Exception('test_exception') | |
| Oracolo | | | |

- 1. La funzione *logger.critical* è invocata con parametro ("[test_module] Warning: test_message. Exception: test_exception. Stacktrace: NoneType: None")
- 2. La funzione sys.exit non è invocata

| Test Case ID | TC-CMM-5.3 | Test Frame | C1, VALS2, VALE2, TP2 |
|--------------|------------|---------------------|--------------------------|
| Tipo | unit | | |
| Parai | Parametro | | ore |
| module | | test_module | |
| message | | test_message | |
| severity | | ErrorSeverity.Error | |
| exit_system | | False | |
| exception | | None | |
| Oracolo | | | |

- 1. La funzione *logger.critical* è invocata con parametro ("[test_module] Error: test_message. Exception: None. Stacktrace: NoneType: None")
- 2. La funzione sys.exit non è invocata

| Test Case ID | TC-CMM-6.1 | Test Frame | C1 | |
|-----------------------|------------|--|----|--|
| Tipo | unit • | | | |
| Parametro Valore | | | | |
| entity_class | | Istanza di <i>src.model.identifier.Class</i> che contiene 2 attributi con nomi "attr1" e "attr2" | | |
| Oracolo | | | | |
| ['attr1' , 'attr2'] | | | | |

| Test Case ID | TC-CMM-7.1 | Test Frame | C1 |
|------------------|------------|---|----|
| Tipo | unit • | | |
| Parametro Valore | | | |
| entity_class | | Istanza di <i>src.model.identifier.Class</i> che contiene: n.2 attributi di istanza n.1 metodo composto da: n.2 parametri n.2 variabili | |
| Oracolo | | | |
| array.length = 8 | | | |

| Test Case ID | TC-CMM-8.1 | Test Frame | C1 | |
|------------------|------------------|---|----|--|
| Tipo | unit | | | |
| Parai | Parametro Valore | | | |
| entity | _class | Istanza di <i>src.model.identifier.Class</i> ch contiene: n.2 attributi di istanza n.1 metodo composto da: n.2 parametri n.2 variabili | | |
| Oracolo | | | | |
| array.length = 6 | | | | |
